Pantone Inspiration

El color produce diferentes emociones e influye con total importancia en nuestra percepción de la realidad. Los colores, tanto primarios como secundarios, en sus infinitas combinaciones entre sí, es lo que transmite el mensaje y la personalidad de cada una de nuestras colecciones. Cada colección monocolor transmite unos valores, y da vida a nuestro mundo, como si se tratase de música. Sabías que el ojo humano puede distinguir alrededor de 10 millones de colores?

Imagina tu color, porque en Cevica lo podemos plasmar en cerámica.

Colors produce different emotions and strongly influence our perception of reality. Colors, both primary and secondary, in their infinite combinations with each other, is what conveys the message and personality of each of our collections. Each monochrome collection transmits values and brings our world to life, as if it were music. Did you know that the human eye can distinguish around 10 million colors?

Imagine your color, because at Cevica we can portray it into ceramics.

Dimension

Las nuevas tecnologías junto a las nuevas tendencias que apuestan por producto con volúmenes adquieren protagonismo en espacios comerciales, en el hogar, en rincones que requieren de ese valor añadido que promueven nuestros diseños con relieves. Dimensión, Forma y estilo es sinónimo de nuestras series más características, que unido a la diversidad de colores, efectos y acabados, convierten este apartado en todo un lujo de posibilidades.

The new technologies together with the new trends that bet on products with volumes acquire prominence in commercial spaces, at home, in corners that require that added value that our designs with reliefs promote. DAMOS LA BIENVENIDA AL AUTOCONSUMO FOTOVOLTAICO

CEVICA, en nuestro afán de mejora continua, acabamos de realizar una inversión importante para nuestro futuro y el medioambiente.

En el verano de 2021 cambiamos el techo de la Fábrica para poder adecuarlo e instalar una planta solar de 105 kWp. Con esta planta solar podremos abastecer una buena parte de nuestro consumo energético de forma limpia, reduciendo considerablemente las emisiones de CO2. Al fin y al cabo, solo tenemos una Tierra y hay que cuidarla.

WE WELCOME PHOTOVOLTAIC SELF-CONSUMPTION

CEVICA, in our desire for continuous improvement, we have just made an important investment for our future and the environment.

In the summer of 2021 we changed the roof of the Factory to be able to adapt it and install a 105 kWp solar plant. With this solar plant we will be able to supply a good part of our energy consumption in a clean way, considerably reducing CO2 emissions.

After all, we only have one Earth and we have to take care of it.
